Work Experience

Garanti Bank (BBVA Group)

Commercial Loan Supervisor (July 2015 - Dec 2019)

- Analyzed client's financial statements, annual reports to determine business, financial, operational, and industry risks, and presented it to the credit committee.
- Prepared an executive summary including charts and graphs to make complex and excessive information understandable and readable to facilitate the credit decision.
- Collaborated with marketing, risk management, policy teams to improve loan request and approval process.
- Monitored clients' business, financial data and payment behavior to notice early warning signals and ensure the bank's NPL KPI target.
- Took part in redesigning interface used by commercial risk team to make it more useful and accessible by providing real user feedback, performing user acceptance tests.
- Took part in the development of the New Rating and Scoring Model by eliminating a long list of ratios and variables logically and ensuring that both practically and theoretically common ones are included in bivariate and description analysis.

Yapi Kredi Bank

Underwriter (May 2014 - June 2015)

- Analyzed client's financial statements and annual reports, interviewed the client to identify key risks and mitigating factors.
- Prepared an underwriting report for clients with new credit line requests and renewals to help credit risk team to make the credit decision.

Seker Bank

Underwriter (Apr 2012 - May 2014)

- Prepared an underwriting report that covers financial and business risks of commercial clients to share with the credit risk team to make the credit decision.
- Collaborated with credit policy team to improve loan request and approval process and made recommendations.
